

Alison Womack

I am British but have lived on Amorgos for 15 years during which time I have been involved every year with Yperia and the Amorgos Tourism Film Festival in some way.

I enjoy travelling having had the opportunity to live overseas both as a child and accompanying my husband to Kenya in the mid-1980s. In recent years I have travelled within South Asia and visited several European cities to attend musical events. I look forward to being able to do so again soon.

Being a juror for this festival and also the Finisterra Arrabida Film Art and Tourism Festival, gives me the opportunity to watch many films and through them travel to places I have not visited. Also, to understand which films give me the feeling of wanting to visit these places
